

# Kitsap County Chapter of Medical Assistants

BOT Meeting August 18, 2018

Our chapter is currently on summer break but will reconvene our educational term in September. We have speakers lined up for the remainder of 2018.

We ended our current education in June with a speaker from the Kitsap County Health Department. The topic was on “Sexually Transmitted Diseases”, and prodigal for reporting in a timely manner. Various condoms in numerous colors were brought for display and available to take.

It has become a tradition in our chapter for at the June meeting to serve the makings for ice cream sundaes to celebrate the upcoming summer break.

Respectfully Submitted,

Mary Lou Mason, CMA (AAMA)
